EU-type examination CERTIFICATE

(Radio Equipment Directive 2014/53/EU, Annex III)

No. 0120-CC-V0019-19

Product:	Base/terminal station – 5GHz high performance RLAN
Trade name / brand name	5GHz high performance RLAN
Model / Type:	**R5000-Omx/5X.300.2x500**
Manufacturer Manufacturer address:	Infinet Wireless LLC Vavilova Str. 69/75, office 425, 117 997 Moscow, Russian Federation
Software version:	FW firmware.H08S01.MINT.v1.90.27 License.Omx.SN-xxxxxx for models Omx/5X.300.2x500
Hardware version:	Omx/5X.300.2x500
Frequency bands of operation:	5 470 - 5 725 MHz (range 1) & 5 725 - 5 875 MHz (range 2)

The Notified Body No.:1383 - Czech Metrology Institute,
after the examination of the technical documentation as drawn by the manufacturer,
announces
that the essential requirements of Article 3.1a, 3.1b and Article 3.2
of Radio Equipment Directive 2014/53/EU (Government Decree No.: 426/2016 Coll.).
have been met.

The conformity assessment on the radio equipment listed above and as described in Annex 1 to this EU-type examination certificate has been carried out in accordance with Annex III (module B) of RADIO Equipment Directive 2014/53/EU (Government Decree No.: 426/2016 Coll., Annex 3).

A list of documentation forming the basis for the EU-type examination is provided in Annex 2 to this EU-type examination certificate.

This EU-type Examination certificate relates only to the documents as provided to CMI.

Annex 1 to EU-type examination certificate for RED 2014/53/EU

No.: 0120-CC-V0019-19

Model: R5000-Omx/5X.300.2x500

Date of issue: March 1, 2019

Base / terminal stations for use in RLAN data networks in the 5,470 - 5,875 GHz range.
They are manufactured in variants with output to connector (N).
Wireless InfiLINK R5000 Lmn/5X.300.2x300 is comprised of Outdoor Unit (ODU) and Indoor Unit (IDU) and intended to be used as an external antenna point-to-point unit.
Common distances: up to 90+ km
Max. data rate 280 Mbps
Modulation from BPSK to 64QAM
Output power regulated: up to +27 dBm
Receiver sensitivity: -94 dBm.

Details of operation:

Radio technology:	MIMO 2x2, OFDM 64/128
Frequency range:	5 470-5 725 MHz (range 1) and 5 725-5 875 MHz (range 2)
Type of modulation:	8 modulation schemes from BPSK to 64QAM
Channel bandwidth:	5 / 10 / 20 / 40 MHz
EIRP RF Power:	30 dBm (range 1); 33/36 dBm (range 2)
Maximal net throughput:	280 Mbps net aggregated
Sensitivity:	down to -94 dBm
Power supply:	90 - 240 VAC / 50-60 Hz

(power supply: MIT-09G-56, Made in Taiwan)

Environmental:

Outdoor Units .... - 40° to +60°C, 100% humidity, condensing

Indoor Units ... 0°to +40°C, 95% humidity, non-condensing

Additional information:

This is Class 2 device.

Radio Equipment Directive 2014/53/EU, Article 10.4: Manufacturers shall keep the technical documentation and the EU declaration of conformity for 10 years after the radio equipment has been placed on the market.

Radio Equipment Directive 2014/53/EU, Article 10.6: Manufacturers shall ensure that radio equipment which they have placed on the market bears a type, batch or serial number or other element allowing its identification, or, where the size or nature of the radio equipment does not allow it, that the required information is provided on the packaging, or in a document accompanying the radio equipment.

Radio Equipment Directive 2014/53/EU, Article 10.7: Manufacturers shall indicate on the radio equipment their name, registered trade name or registered trade mark and the postal address at which they can be contacted or, where the size or nature of radio equipment does not allow it, on its packaging, or in a document accompanying the radio equipment. The address shall indicate a single point at which the manufacturer can be contacted. The contact details shall be in a language easily understood by end-users and market surveillance authorities.

Radio Equipment Directive 2014/53/EU, Article 10.8: Manufacturers shall ensure that the radio equipment is accompanied by instructions and safety information in a language which can be easily understood by consumers and other end-users, as determined by the Member State concerned. Instructions shall include the information required to use radio equipment in accordance with its intended use. Such information shall include, where applicable, a description of accessories and components, including software, which allow the radio equipment to operate as intended. Such instructions and safety information, as well as any labelling, shall be clear, understandable and intelligible.

The following information shall also be included in the case of radio equipment intentionally emitting radio waves:

(a) frequency band(s) in which the radio equipment operates;

(b) maximum radio-frequency power transmitted in the frequency band(s) in which the radio equipment operates.

Radio Equipment Directive 2014/53/EU, Article 10.9: Manufacturers shall ensure that each item of radio equipment is accompanied by a copy of the EU declaration of conformity or by a simplified EU declaration of conformity. Where a simplified EU declaration of conformity is provided, it shall contain the exact internet address where the full text of the EU declaration of conformity can be obtained.

Annex 2 to EU-type examination certificate for RED 2014/53/EU

No.: 0120-CC-V0019-19

Model: R5000-Omx/5X.300.2x500

Date of issue: March 1, 2019

Radio Equipment Directive 2014/53/EU, Article 10.10: In cases of restrictions on putting into service or of requirements for authorization of use, information available on the packaging shall allow the identification of the Member States or the geographical area within a Member State where restrictions on putting into service or requirements for authorization of use exist. Such information shall be completed in the instructions accompanying the radio equipment.

Radio Equipment Directive 2014/53/EU, Article 19.2: On account of the nature of radio equipment, the height of the CE marking affixed to radio equipment may be lower than 5 mm, provided that it remains visible and legible.

Radio Equipment Directive 2014/53/EU, Article 20.1: The CE marking shall be affixed visibly, legibly and indelibly to the radio equipment or to its data plate, unless that is not possible or not warranted on account of the nature of radio equipment. The CE marking shall also be affixed visibly and legibly to the packaging.

Radio Equipment Directive 2014/53/EU, Annex III, Module B7: The manufacturer shall inform the notified body that holds the technical documentation relating to the EU-type examination certificate of all modifications to the approved type that may affect the conformity of the radio equipment with the essential requirements of this Directive or the conditions for validity of that certificate. Such modifications shall require additional approval in the form of an addition to the original EU-type examination certificate.

In accordance with Notified Body guidance; if there are no changes, a Notified Body EU-type examination certificate has a validity of 10 years from the date of issue.

The Declaration of Conformity under Directive 2014/53/EU or a copy thereof must be supplied with each device.
